ABOUT ME

I am a rising software developer in developing dynamic web applications. I have technical skills as well as excellent interpersonal skills, enabling me to interact with a wide range of people. I am eager to be challenged to grow and further improve my IT skills. I am an energetic, ambitious person who has a responsible approach to any task that I undertake or situation that I am presented with. As a mathematician, I have experience in solving complex problems and finding the best and easiest way to solve them. I always aim to strike long-term working relations.

WORK EXPERIENCE

Software developer
Lyntel [1 Aug 2023 – Current]

Country: United Arab Emirates

At Lyntel, I play a key role in both React web application development and React Native mobile app development for our eSIM solution. Collaborating with a skilled team, I concentrate on enhancing global connectivity, boosting IoT capabilities, and optimizing travel experiences. Notable challenges include implementing automatic eSIM card installation on mobile devices and integrating a chatbot. My commitment lies in crafting top-tier solutions that align with Lyntel's vision of transformative connectivity.

Course Lecturer/Mentor
Centar NIT [25 May 2022 – Current]

City: Novi Pazar
Country: Serbia

I led a comprehensive course covering HTML/CSS/Javascript and React, guiding a group of students through the basics. Post-course, I assumed a team-lead role during their internship, mentoring and steering them through the development of a practical web application. The project involved frontend development using Javascript (React), source control with Git, and task management through Trello. This hands-on experience equipped them with practical skills and real-world insights into the software development process.

Software developer
Adjan AutoPro [1 Sep 2022 – 1 Aug 2023]

Country: Serbia

As a Software Developer at Adjan AutoPro, I specialize in React Native app development, placing a strong emphasis on Expo. I have successfully led end-to-end frontend projects, independently managing two notable ventures. These include mobile applications for booking management and a health-focused nutrition app, showcasing my expertise in delivering innovative and efficient solutions through technologies like React Native and Expo.

Software developer
Pitaj učene [1 Sep 2022 – 1 Mar 2023]

Country: Bosnia and Herzegovina

In my previous role, I was a key React Developer for the 'Islamski kviz - pitajucene.com' web quiz app, utilizing React and SocketIO. I also led the development of the React Native mobile app, seamlessly integrating web app

functionalities, SocketIO, and features like result tracking. This comprehensive approach significantly enhanced accessibility and user experience across both platforms.

Teacher
OŠ "Vuk Karadžić" [1 Sep 2021 – 31 Aug 2022]

City: Novi Pazar
Country: Serbia

Through my work as a teacher, I developed strong communication and organizational skills, as well as the ability to adapt to different learning styles and needs.
